DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-14 are rejected under 35 U.S.C. 102(b) as being anticipated by Okumura (US 5,433,369).

Okumura discloses the method and apparatus for wire bonding comprises a device for ultrasonic vibration, applying pressure between the metallic wire and the device and simultaneously applying a vibratory force thereto, detecting degree of bonding, and stopping the application of ultrasonic vibration and pressure in response to the detection of completion of the state of bonding. The device further comprises a semiconductor chip and the metallic wire is welded to a bonding pad. The bonding is determined from an abrupt change of the waveform of the feedback signal (col. 3, lines 11-50).

Response to Arguments

3. Applicant's arguments filed 6/50/02 have been fully considered but they are not persuasive.

Applicant's argument regarding to applicant's invention of controlling of the welding time so that the welding operation is only continued as long as necessary to establish a good bond is not in commensurate with the scope of the claim, since applicant did not claim such limitation. Therefore, the prior art of record discloses the claimed invention as claimed.

4. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
